SET-UP (Cont'd):

Step 9: To complete installation, use Wrench to turn Locking Nuts on Tension Bolts in clockwise direction until Locking Nuts reach Gate. (Figure H)

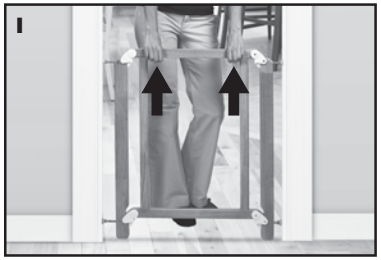
DO NOT OVERTIGHTEN.

OPERATION:

To remove Gate from opening:
Simply pull up on center of Gate to unlock and pull out of opening (Figure I).

To re-install Gate:
Follow Steps 7-10 from Set Up section.

Note: If installing Gate in different opening, loosen Locking Nuts and then follow all Set Up directions.



MAINTENANCE:

1. Regularly check gate, tension bolts and pads to make sure the gate is securely in place.
2. Do not use the gate if any components are damaged or missing.

To Clean: Wipe surface with a damp cloth or sponge to clean. Use glass or multi-surface cleaner on clear panel to maintain a clean, transparent view.

INSTRUCTION MANUAL

Sure & Secure® Perfectly Clear Gate

Thank you for purchasing the Sure&Secure® Perfectly Clear Gate from Summer Infant. This pressure-mounted gate will help you create and maintain a secure environment for your child (or pets). The durable clear panel, which is made of polycarbonate plastic, allows parents to see clearly at all ties with no obstruction. The gate can be set up and installed quickly and easily moved from room to room.

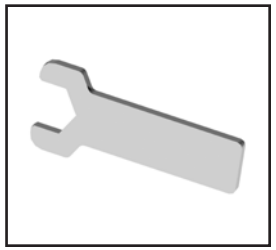
⚠ WARNING: IMPORTANT! KEEP FOR FUTURE REFERENCE!

- To prevent serious injury or death, securely install gate and use according to manufacturer's instructions.
- Never use with a child able to climb over or dislodge/open the gate.
- Never leave child unattended.
- Do not use if any components are missing or damaged.
- To prevent falls, NEVER use at the top of the stairs.
- Always close and lock gate behind you.
- Do not use if any components are missing or damaged.
- Intended for use with children from 6 months through 24 months.
- This product will not necessarily prevent all accidents. Proper adult supervision is required at all times.
- Adult assembly required. Exercise care when unpacking and assembling product.

FEATURE & COMPONENTS:

Sure & Secure Perfectly Clear Gate

Tension Bolts with Locking Nuts (4)



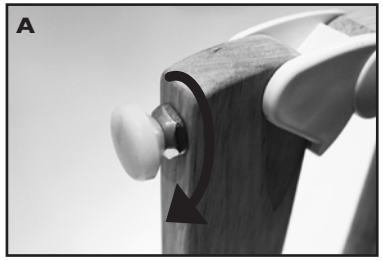
Wrench

SET-UP:

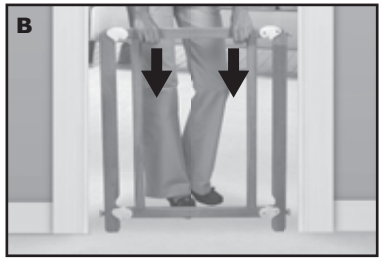
Fits doorway openings 28” - 32.5 wide

Step 1: Turn 4 Tension Bolts into 4 corners of gate in a clockwise direction until Locking Nuts reach gate. This will prepare the gate for installation (Figure A).

Note: Ensure Locking Nuts are flush against white caps on Tension Bolts.)



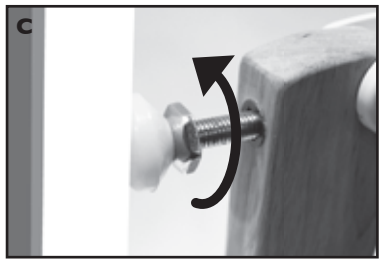
Step 2: Place Gate in center of opening in downward, locked position so that legs are flat on floor (Figure B).



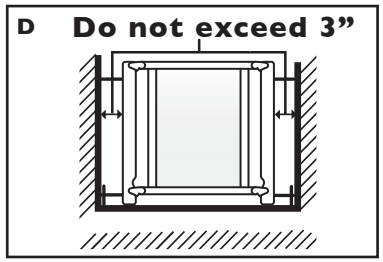
SET-UP (Cont’d):

Step 3: Evenly turn 4 Tension Bolts in a counter-clockwise direction to extend them out. Turn Tension Bolts evenly until they touch the frame/wall (Figure C).

Note: Be certain to keep equal spacing on each side, never exceeding 3 inches (Figure D).

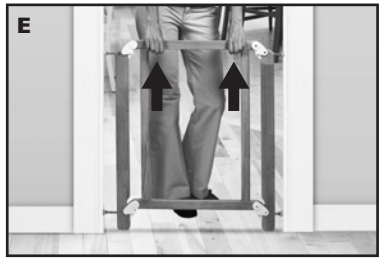


Step 4: Remove Gate from opening by pulling up on center of gate (Figure E).



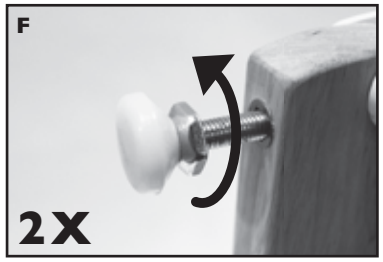
Step 5: Adjust tension by turn 4 Tension Bolts approximately 2 full rotations in a counter-clockwise direction (Figure F).

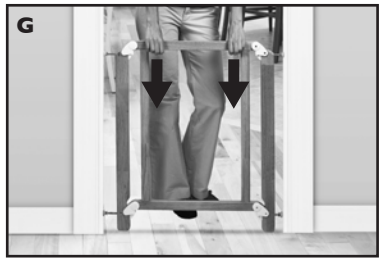
Step 6: Lift Gate from center so that it is in the unlocked position.



Step 7: Place Gate back in center of opening.

Note: Make sure Gate remains in unlocked position and legs are flat on floor.

Step 8: Press down on center of Gate to securely lock into place (Figure G).




Note: If Gate doesn’t fully lock, or is too loose after pushing down, take out of opening and re-adjust Tension Bolts until Gate fits properly.
