FOR IMMEDIATE RELEASE

Summer Infant™ Offers Safe & Secure™ Premium Line of Alarmed Childproofing Products

Innovative Safety Products for Extra Protection in High-Traffic Areas

Lincoln, RI (May 23, 2005) – Parents and caregivers are looking for the best protection possible when childproofing their homes. That is why Summer Infant™ offers a premium line of Safe & Secure™ safety products with the added benefit of an alarm notification system. Far from your average safety devices, they alert an adult with an audible alarm when tampered with.

Included in the line are a sliding door lock, cabinet “C” lock, cabinet “U” lock, appliance lock and cabinet flex lock. Easy to install, each of the devices comes with an on/off switch. When activated, these innovative locks not only prevent children from accessing cabinets for example, but also provide an additional level of protection by sounding an alarm after 3 seconds if tampered with; thereby immediately letting a parent know if their child is trying to gain access to a restricted area.

With parent convenience in mind, the three second delay also allows time for mom and dad to remove the lock for unrestricted access without sounding the alarm. While deactivated or in the “off” position, mom and dad can then use the lock as a regular, non-alarmed childproofing device.

Now parents have a choice when trying to keep their little ones safe. Small children are curious and will play with anything they can reach. The Safe & Secure™ alarmed safety line from Summer Infant provides an extra safety net in high-traffic areas around the home. A superb value when an extra level of protection is essential.

Rounding out the safety line, look for Summer Infant’s non-alarmed product offerings which include foam edge and corner guards, smartly designed parent-release outlet plug covers, drawer lock, and cabinet “C” locks.

About Summer Infant, Inc.

Summer Infant, Inc. is a premium supplier of juvenile products for today’s parents and caregivers. The Company is based on the philosophy that innovation is a key attribute in driving new product development. Their commitment of “Delivering the Best for You and Your Baby” is unwavering.
