FOR IMMEDIATE RELEASE

Summer Infant™ Shows New Growth at the 2007 International JPMA Show

Key Product Introductions, New Categories, and Expanded Capabilities

Woonsocket, RI (April 22, 2007) – Last month, KBL Healthcare announced the acquisition of Summer Infant, Inc., propelling Summer into a whole new realm of participation in the juvenile products industry. Everything has remained the same, with the exception of the financial resources now available that allow Summer Infant to continue in its quest of “*Delivering the Best for You and Your Baby*”. Summer is proud to be showing at the 2007 International Juvenile Products Manufacturers Association (JPMA) Show in Orlando, Florida in booth #2631 from April 23-25, with a more formidable presence and expanded showing of new products, capabilities and support tools.

Since last spring, Summer Infant has undergone changes that allow for sustainable growth. These positive modifications include increasing their staff to 70+ strong and moving into a brand new 52,000 square foot facility that houses their corporate offices, as well as a warehousing facility. What's new on the product front is the exciting launch of a Soft Goods Division, additional products under the Summer brandname, and a partnership with Disney® and Sesame Workshop™. Lastly, Summer is now counted as a valued member of the NASDAQ community and is now a publicly traded company.

Summer has gone to great lengths to shore up its operations to better serve their retail customers, consumers, media partners, brand and licensing partners, and now, their investors. Trading under the stock symbol, SUMR, Summer Infant is now a valued member of the NASDAQ family of public companies. On March 20, 2007, Summer Infant was invited to lead the NASDAQ Opening Bell Ceremony. It was momentous on many levels, and ushered in an exciting beginning to the newly merger company. Operations have been further streamlined within their new state-of-the-art corporate offices. From increased innovation and creativity in product development, to expanded consumer and customer relations departments, to crucial onsite resources such as the warehousing facility, Summer's new home was designed for optimal efficiency.

With a solid foundation in place, Summer now has the additional resources necessary to increase its dedication to delivering the absolute best products. Their goal is to educate and equip the consumer with the knowledge and tools appropriate for their particular situation. Becoming a new parent and answering the needs of each individual child often means that more than one solution is needed. Summer's new growth provides practical answers to these needs. Summer provides product solutions in over 13 categories such as the Day & Night Handheld Color Video Monitor, Newborn-to-Toddler Bath Center and Shower, Mother's Touch™ Large Comfort Baby Bather, Sure and Secure™ Extra Tall Walk-Thru Gate, and QuickSmart™ Easy Fold Stroller. Additionally, Summer offers character-based products that provide parents and kids with a comforting and familiar face. To expand their reach, Summer is also premiering a new Soft Goods Division featuring a line of organic bedding called Nature's Purest™ at the JPMA Show.

Summer has grown significantly and will continue to put its best foot forward in turning the achievements realized since the last JPMA Show into premiere products and services.
