

SETUP & USE (continued)

STAGE 3: BOOSTER SEAT FOR TODDLER

Note: All straps must be used during booster seat mode.

Note: Depending on size of child, use either the small or large support.

• Store unused support underneath seat.

• Either keep in or remove foam insert for child's comfort.

Step 1: Locate chair straps taped to the bottom of the seat base.

Step 2: Slide folded ends of chair straps into slots on the back of the seat (Figure I). Pull up to ensure chair straps are secured in slots (Figure J). Repeat for slots in the side of seat with the second set of chair straps.

Step 3: Place booster seat onto adult chair. Pass rear chair strap around back of adult chair and secure buckle (Figure K). Pull and tighten chair strap to ensure a secure fit.

Step 4: Pass the bottom chair straps under base of adult chair and secure buckle (Figure L). Pull and tighten chair strap to ensure a secure fit.

CLEANING

Wipe components with warm soapy water and rinse clean. Wipe with a clean, dry cloth.

INSTRUCTION MANUAL

Infant Floor/Support Seat Use:

⚠ WARNING

FALL HAZARD: Infants have suffered skull fractures falling while in and from floor seats. • Use **ONLY** on the floor. • **NEVER** use on an elevated surface. • **ALWAYS** use restraints. Adjust to fit snugly. • **NEVER** lift or carry child in the product. • **ALWAYS** use large support to ensure snug and tight fit. • Use **ONLY** with a child that is able to hold their head up unassisted. • **STOP** using when child can climb out or walk. • **ALWAYS** keep child in view while in product. • Prevent finger injury: Keep child away from chair when installing the tray. • Do not use this product if it is damaged or broken.

STRANGULATION HAZARD:

Do not use booster seat adult chair straps when not in use as a booster. Store them in accordance with the instruction manual.

DROWNING HAZARD: Infants have drowned when floor seat has been placed in a bath tub or pool. • **NEVER** use in or near water.

Booster Seat Use:

⚠ WARNING

Children have suffered **head injuries**, including skull fractures, after falling with or from booster seats.

- Check that booster seat is **securely attached** to adult chair before each use.
- **Always use restraint** until child is able to get in and out of booster seat without help. Adjust to fit snugly.
- **Never** allow child to push away from table.
- **Never** lift and carry child in booster seat.
- **Stay near** and **watch** your child during use.
- **ALWAYS** secure BOTH back and seat straps to an adult chair.
- **NEVER lift** this product with your child in it.
- **NEVER** leave child unattended and without supervision.
- Prevent serious injury or death. Do not use in motor vehicles.
- **NEVER** use this product as a car seat or bath seat, on a table or counter top, stool, swivel chair, folding chair, unstable chair or any chair where the straps cannot secure it properly.
- Minimum dimensions of adult chair that the booster seat shall be attached to: Seat width 17 in. and depth 15.5 in., and the seat backrest height is at least 8 in. tall.
- Until child is able to get in and out of the booster seat without help (about 2½ years old), the child should be secured in the booster seat at all times by the restraining system.
- The tray is not designed to hold the child in the chair.
- Use this product only with children capable of sitting upright unassisted.
- Check that both the floor and seat of the chair are level before installing the booster seat.
- Prevent finger injury: Keep child away from chair when installing the tray.
- Once installed, check the security and position of the booster seat.
- Do not use this booster unless all components are correctly fitted and adjusted.
- Discontinue use of the product if damaged, broken, or disassembled.

PREVENT FALLS: ALWAYS USE ADULT CHAIR STRAPS when using product on elevated surfaces as a booster seat.

COMPONENTS

* Child restraint straps are pre-assembled on product.

** Chair straps (2) are taped to the underside of the main seat.

MODES OF USE

Stage 1:
Infant Support Seat
(with large support and foam insert)
Use when child can hold up head unassisted.

Stage 2:
Booster Seat with Tray
(with large support and tray, with or without foam insert)
Use until child begins to walk unassisted.

Stage 3:
Booster Seat for Toddler
(with small support installed and large support stored)

SETUP & USE

STAGE 1: INFANT SUPPORT SEAT

(no assembly necessary)

Step 1: Unbuckle child restraint straps and place child in seat.

Step 2: Buckle child into child restraint and tighten straps for a snug and secure fit.

Note:

- **ALWAYS** use **large support** when in use as infant floor/support seat, with or without tray (Figure A).

- Depending on the size of the infant, either leave in or remove foam insert.

Stage 1

Stage 2

STAGE 2: BOOSTER SEAT WITH TRAY

Note: All straps must be used during booster seat mode (Figure B).

- Depending on size of child, use either the small or large support.
- Store unused support underneath seat.
- Either keep in or remove foam insert for child's comfort.

Step 1: Locate chair straps taped to the bottom of the seat.

Step 2: Slide folded ends of chair straps into slots on the back of the seat (Figure C). Pull up to ensure chair straps are secured in slots (Figure D). Repeat for slots in the side of seat with the second set of chair straps.

Step 3: Place booster seat onto chair. Pass rear chair strap around back of adult chair and secure buckle (Figure E). Pull and tighten chair strap to ensure a secure fit.

Step 4: Pass the bottom chair straps under base of adult chair and secure buckle (Figure F). Pull and tighten chair strap to ensure a secure fit.

Step 5: Unbuckle child restraint straps and place child in seat. Buckle child into child restraint and tighten straps for a snug and secure fit (Figure G). Clip tray onto sides of seat. (Figure H).
