INSTRUCTION MANUAL

COMFORT HEIGHT™ BATH CENTER WITH STEP STOOL

⚠ WARNING

Drowning Hazard: Babies have **drowned** while using infant bath tubs and bath supports.

To prevent drowning:

- **Stay** in arm's reach of your baby.
- **Never** rely on a toddler or preschooler to help your baby or alert you to trouble. Babies have drowned even with other children in or near bath tub.
- Babies can drown in as little as **1 inch** of water. Use as little water as possible to bathe your baby.
- Use in **empty** adult tub or sink.
- Keep drain **open** in adult tub or sink.
- **NEVER** bathe the baby until you have tested the water temperature. **ALWAYS** check water temperature before placing child into tub.
- Bath water should be between 90°F and 100°F (32.2°C and 37.8°C).
- This product is not a toy. **DO NOT** allow children to play with it.

Fall Hazard: Babies have suffered **head injuries** falling from infant bath tubs and bath supports.

To prevent falls:

- Place tub **only** in adult tub or sink for safe use.
- **Never** lift or carry baby in tub and/or bath support.
- **Never** use on uneven or elevated surfaces.
- **NEVER** leave children unattended.
- Discontinue use of product if damaged, broken, or disassembled.

FEATURES AND COMPONENTS:

SETUP & USE:

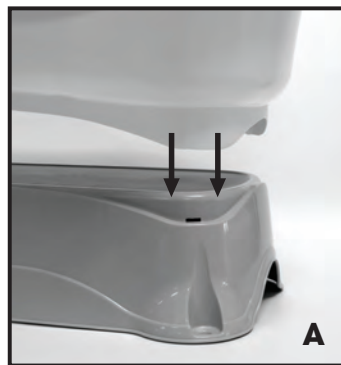

⚠ WARNING

Never leave child unattended while in sink or tub.

To use tub with base - Tub snaps onto base for added security. Position infant tub on top of base and snap securely onto base. Place bath support into bath tub. Use bath center as a platform to reach baby comfortably during bathing (Figures A and B).

To remove tub from base - Pull tub apart from base (Figure C).

For all uses, always place the infant bath tub into a full sized adult bath tub or on a flat surface. Always check water temperature prior to bathing child. Bath water temperature should never exceed 100° F.

SETUP & USE (continued):

STAGE 1 & STAGE 2:

Newborn / Infant Bath Support

To use in sink:

Position bath support on the bottom of the sink. Place newborn on the bath support to bathe (Figure D).

To use in adult tub:

Assemble bath center as shown in figures A and B. Place in adult bath tub. Place infant on bath support to bathe (Figure E).

Note: Never place more than 1" of water in tub. Always keep the drain open in the adult bath tub.

Note: Always keep drain plug open in infant bath tub when using bath support.

⚠ WARNING

Always check to be sure tub is secure and snapped onto base before placing baby in tub. Toddler tub should fit securely onto base/kneeler. Discontinue use of tub on base once child is able to pull up to sitting position. Never leave child unattended while in sink or tub.

STAGE 3: Tub for Growing Child

Position bath tub in a full size bathroom tub where you are bathing your child. Place child in tub to bathe (Figure F). **Never leave child unattended while in tub.**

STAGE 4: Extended use as a Kneeler/Step Stool -

Place on level, non-slip surface.

Note:

Maximum weight is 250 lbs (113 kg) (Figure F and G).
