PREVENT FALLS: ALWAYS USE BOOSTER CHAIR STRAPS when using product on elevated surfaces as a Booster Seat.

WARNING

Children have suffered head injuries, including skull fractures, after falling with or from booster seats.

- Check that booster seat is securely attached to adult chair before each use.
- Always use restraint until child is able to get in and out of booster seat without help. Adjust to fit snugly.
- Never allow child to push away from table.
- Never lift and carry child in booster seat.
- Stay near and watch your child during use.
- ALWAYS secure BOTH back and seat straps to an adult chair.
- NEVER lift this product with your child in it.
- NEVER leave child unattended and without supervision.
- NEVER use this product as a car seat or bath seat, on a table or counter top, stool, swivel chair, folding chair, unstable chair or any other chair where the straps cannot secure it properly.
- Prevent serious injury or death. Do not use in motor vehicles.
- Minimum dimensions of adult chair that the booster seat shall be attached to: Seat Width: 13.5 in. and Depth: 13 in., and the Backrest Height is at least 10 in. tall.
- Until child is able to get in and out of the booster seat without help (about 2 1/2 years old), the child should be secured in the booster seat at all times by the restraining system. The tray is not designed to hold the child in the chair.
- Check that both the floor and seat of the chair are level before installing the booster seat.
- Prevent finger injury: Keep child away from chair when unfolding or folding seat. Keep child’s hands away when installing the tray.
- Use this product only with children capable of sitting upright unassisted.
- Discontinue use of product if damaged, broken, or disassembled.
- Once installed, check the security and position of the booster seat.
